RHINOZ

ROOFSEAL 401

RHINOZ ROOFSEAL 401

A ready-to-use water based acrylic waterproofing compound with high flexibility of 400% that helps to cover the cracks effectively. It has strong adhesion, does not peel off, UV resistant, effective water resistant and chemical resistant, non-toxic, easy, safe and convenient to use with no strong odor. This compound is suitable for waterproofing in applications such as roof gutters, balconies and walls. It is suitable for both interior and exterior but not for areas with water stagnation. This product provides excellent adhesion with variety of materials including cement, concrete, tiles and steel.

FEATURES

- High elongation of 400%
- Excellent waterproofing property
- Excellent Adhesion and applicable on tiles
- UV Resistant

Coverage : 0.35 kg / sqm / coat (Thickness 300 microns)

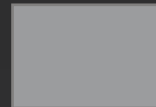

Unit Size : 4, 20 kg

Storage : Minimum 1 year under recommended storage conditions of shaded, dry and well ventilated area.

Base	:	Acrylic polymer
Appearance	:	Viscous liquid
pH	:	8.0 - 10.0
Density	:	1.2 - 1.4 g/cm ³
Re-coat time	:	1 - 2 hours
Cure time	:	7 days
Elongation at break	:	400 % (ASTM D2370)
Tensile strength	:	18 N/mm ² (ASTM D2370)
